

Sizing Guide

Kilts: Our kilts are a custom sized and run by waist-length measurement. Where you wear the kilt on your waist is entirely up to you. However the standard height is around the navel. We suggest measuring above the hip bone. (For example a 27-16 would be a 27" waist and a 16" long kilt) Waist measurements run by the length of your kilt will depend on how high you want to wear the kilt on your waist (Our kilts run 12, 14, 16 or 18 inches long). We can make custom sized kilts but they are special order and final sale.

Polo shirts:

Fitted Polo shirts (Fitted polo shirts are a cap sleeve & slim fit to body)
